## GOING AFTER THE ORIENTAL TRADE

The Dollar Steamship Co. expects to operate a line of steamers between the coast and the Orient, regularly hereafter, and according to a statement made in Honolulu by an official of the company not long ago this city will be a port of call. Several of the Dollar ships have been here en route to the Orient.

The Tacoma Ledger says: "H. F. Alexander, president of the Commercial Dock Co., returned Monday night from a brief business trip to San Francisco, and is authority for the statement that the Dollar Steamship company proposes to establish a regular line of freight steamers to the Orient. The steamship Stanley Dollar and the steamship Arab are to be used in the Oriental traffic, besides which the company operates the coasting steamers James Dollar, Melville Dollar, Grace Dollar, Robert Dollar, Noyo, Soquola and Rival. The Stanley Dollar, which was formerly the transport Egbert, was on the Sound a few months ago and loaded a cargo of flour at Tacoma and Seattle for the Orient. She is now en route to San Francisco from Hakodate and will go thence to Portland to load a cargo of lumber for the Orient."

The Arab, the name of which is to be changed to the M. S. Dollar, sailed only a few days ago from Tacoma with some 3,000,000 feet of lumber for Shanghai, and will return in August for another cargo. The Stanley Dollar is due at Portland late in June. Robert Dollar, head of the company, went to the Orient from Tacoma on the Arab to look after his interests there.

"I expect the company will derive most of its business on Puget Sound," said Mr. Alexander yesterday. "There is a good opening and if Oriental trade is to be had they will get it. The coastwise traffic is heavy and the demand for coasting vessels is strong."

## RESIDENCE FOR NAVAL COMMANDANT

The plans drawn by local architects for a cottage for the naval commandant have been sent to Washington and are still in the hands of the bureau. The Navy Department has objected to the plan of building the cottage on the naval reservation at Punchbowl and it will probably have to be located somewhere else. Just where it will be, has not been decided upon as yet, and no action will be taken until the Navy Department signifies its approval or disapproval of the plans already submitted.

## NORWEGIAN BARK FROM NEWCASTLE

The Norwegian bark Barossa arrived yesterday morning, forty-seven days from Newcastle with a cargo of coal. She made a fairly quick trip to Honolulu. The Barossa is lying out in the stream.

## Cools the Blood

Hot weather takes the life out of everybody. You become languid, debilitated, nervous, depressed. You lose your appetite and you have indigestion. Your blood becomes impure, your head aches, your nerves are weak, and you are tired all the time. You want something to purify your blood and make it cool and healthy.

Mr. Giovanni D'Nesi, of Parkside, South Australia, tells you how this may be done. He sends his photograph.

"In this warm and debilitating climate I believe nearly every one needs a good tonic. For a number of years I have relied on Ayer's Sarsaparilla. I can strongly testify to its curative power in cooling the blood in hot weather and in toning up the whole system. It is a wonderful medicine."

**AYER'S  
Sarsaparilla**  
There are many imitations "Sarsaparillas." Be sure you get Ayer's.  
Ayer's Pills are Liver Pills. They cure constipation, biliousness, sick headache, nausea, and all liver troubles.  
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.  
HOLLISTER DRUG CO., Agents.

## MIGHT BUILD A STORE HOUSE

The Navy Department intends to use the land adjacent to the Channel wharf over which there was a controversy recently, for a store house. No plans for this have been made, but it is reported to be the navy's intention to have a storage place for naval stores in Honolulu, and easily accessible to passing war ships.

## ISLAND STEAMERS GET IN EARLY

The Claudine and Mikahala arrived early yesterday morning, both experiencing good weather. The Claudine brought 10,608 bags of sugar from Maui ports, and the Mikahala carried 4,900 bags from Kauai ports.

Purser J. L. Friel of the Mikahala reports sugar on Kauai: K. S. M. 3000, V. K. 800, M. A. K. 12,800, G. & R. 650, McB. 21,229. Total of 38,479 bags.

The steamer Walaleale was at Koloa discharging coal, will be finished Monday. Steamer Kauai at Makaweli left for Niihau in afternoon. Barkentine Kohala at Eleale discharging coal. Weather good on Kauai crossing channel, light trade with smooth seas.

## The "Aorangi" Reef.

Purser Bellemaine, of the R. M. S. Aorangi, reports that on that vessel's last passage south, while in the vicinity of the Phoenix Group, a strong westerly current was experienced, and Captain Phillips determined to locate, if possible, the reef marked "existence doubtful, 1899," on British Admiralty Chart No. 780. The charted position of the reef was given as Lat. 5 deg. 37 min. S. and 174 deg. 2 min. W. A sharp lookout was kept, and the reef was sighted some 12 miles east of the charted position says the Vancouver News Advertiser. Reliable observations were obtained, which places it in 5 deg. 33 min. S. and 173 deg. 50 min. W. It was observed to be of horseshoe formation, extending about three-quarters of a mile north and south, entirely submerged and carrying heavy breakers. This danger is 20 miles to the westward of the usual track of the Canadian-Australian Line, between Suva and Honolulu.

The Admiral of the Sydney Auxiliary Station, to whom the discovery was reported, has recommended the British Admiralty to name the reef "Aorangi Reef."

## Amphion Arrives.

H. M. S. Flora is expected to arrive shortly at Esquimaux, and H. M. S. Amphion is also expected at Esquimaux ere long, she having left Honolulu on her return voyage after H. M. S. Amphitrite took charge of the torpedo destroyers Sparrowhawk and Virago, to convey them to Hong-Kong. The cruiser Amphitrite loaded a large amount of coal at the Hawaiian Islands, filling her bunkers with 2,000 tons—Vancouver News Advertiser.

## Shipping Notes.

The Arthur Sewall is not expected to get away for a week yet.

Work in dismantling the old Oceanic wharf will be begun in earnest this week.

The Kinai is at the Brewer wharf, where she unloaded her cargo of sugar Saturday.

The Coptic is due from San Francisco tomorrow afternoon with eight days later mail.

The Sierra is due to sail tomorrow for San Francisco. She may get in late tonight, though not expected until early tomorrow morning.

There will be two mails for the coast tomorrow, the Nevada sailing at five o'clock. The Sierra will probably get away about the same time.

# PURE FOOD REGULATION

## The New Law Will Make Many Changes.

## Customs Officials to Have New Form of Duty.

## Likewise There Will be a Species of Retaliation Made Possible Under it.

All foods, liquors and drugs imported into the United States after next month are to be subject to sharp scrutiny under a statute enacted at the last session of Congress, which has altogether escaped general attention, although it is of the highest importance and of the most drastic character. New York importers especially, as well as numerous domestic producers throughout the country, will be amazed to learn that radical legislation along the lines of the federal Pure Food bill, which itself failed of approval, was accomplished in the last hours of Congress. This legislation not only provides for the prohibition of all imports dangerous to health, but gives to the Executive a means of prompt retaliation on any country discriminating against American products and of preventing foreigners from dumping on American markets deleterious products which they cannot sell at home.

This disclosure was made yesterday in the discussion of pure foods and pure drugs before the American Therapeutic Society, now in session in this city, by Dr. W. H. Wiley, chief of the Bureau of Chemistry of the Department of Agriculture, who further revealed that comprehensive plans had been matured for enforcing the new statute, which goes into effect on July 1, and which gives the Secretary of the Treasury, co-operating with the Secretary of Agriculture, absolute jurisdiction over imports into the United States of drugs, liquors and foods.

Hereafter any of these products from abroad offered for consumption in this country which are found to be adulterated, impure, falsely labelled, or which do not comply with the laws of the country where they were manufactured, or from which they were imported, may be kept out of the United States. Dr. Wiley frankly declared that this had been one of the greatest victories ever gained by the pure food advocates, although the proposed national inspection and control bill had failed of passage, and he admitted that the new law had been purposely buried in a section of an appropriation bill so as not to attract the attention of those who might otherwise have compassed its defeat.

## THE TERMS OF THE LAW.

The provision, which in its terms bears out this admission, appears in the Agricultural Appropriation bill, signed by the President on March 3, and is as follows:

To investigate the adulteration of foods, drugs and liquors when deemed by the Secretary of Agriculture advisable; and the Secretary of Agriculture, whenever he has reason to believe that articles are being imported from foreign countries which by reason of such adulteration are dangerous to the health of the people of the United States, or which are forbidden to be sold or restricted in sale in the countries in which they are made or from which they are exported, or which shall be falsely labelled in any respect in regard to the place of manufacture of the contents of the package, shall make a request upon the Secretary of the Treasury for samples from original packages of such articles for inspection and analysis; and the Secretary of the Treasury is hereby authorized to open such original packages and deliver specimens to the Secretary of Agriculture for the purpose mentioned, giving notice to the owner or consignee of such articles, who may be present and have the right to introduce testimony; and the Secretary of the Treasury shall refuse delivery to the consignee of any such goods which the Secretary of Agriculture reports to him have been inspected and analyzed and found to be dangerous to health, or which are forbidden to be sold or restricted in sale in the countries in which they are made or from which they are exported, or which shall be falsely labelled in any respect in regard to the place of manufacture or the contents of the package.

GIVES MEANS OF RETALIATION. "After July 1," Dr. Wiley declared, "you will hardly be able to buy in this country any frank-furters import-

ed from Germany. Germany objects to the borax in our meats, and we will object to the borax in her sausages, for we have found that they all contain borax. Then, too, the French wines that come into the United States will receive their dues. There is probably not a wine sold in this country under the label of 'pure French wine' that is not a mixture or blend of French and Italian and other light wines. We intend to make these people tell on the label the truth about what is in the bottle."

Dr. Wiley said further that the Bureau of Chemistry of the Department of Agriculture had already obtained the data on which to proceed when the new law becomes operative, and that no time would be lost in putting it into force. A chemist and several assistants were added to his bureau by Congress last year, and these new officials are already analyzing samples of imported drugs and other products which have been obtained from the customs officials.

While the new provision will effectually prevent what Dr. Wiley indicated was the present practice of foreign manufacturers of putting off on the United States food and drink which the laws of their own countries would not permit to be sold therein, he also indicated incidentally that it might be used effectually as a weapon of retaliation against the products of any country making hair splitting discriminations against American goods.

The imports of drugs, foods and drinks into the United States amount to \$10,000,000 a month, in round numbers. A little over half of this amount is represented by drugs, the remainder being divided among wines, beers, provisions, vegetables and fish. When the law becomes generally known it will doubtless cause consternation abroad and among importers in the United States. Dr. Wiley called attention to the fact that it would cost the government little to put the law into operation, as there were few ports of entry for the foreign products affected, the principal one being New York.

As a further preparation to enforcing the new law, Dr. Wiley said, the Department of Agriculture already had its special agents gathering data as to the methods of manufacturers in Europe, and they had acquired comprehensive evidence on which to proceed.—N. Y. Tribune.

Winston Churchill, the author of "Richard Carvel" and "The Crisis," has resigned his commission as colonel on the staff of Governor Nahum J. Bacheelder, of New Hampshire, and the resignation has been accepted. The reason given for the resignation is pressure of professional work.

## LODGE NOTICES

PACIFIC LODGE NO. 822,  
A. F. & A. M.

THERE WILL BE A STATED meeting of Pacific Lodge No. 822, A. F. & A. M., at Masonic Temple, THIS Monday, June 8, at 7:30 p. m.

TRANSACTION OF BUSINESS. Members of Hawaiian Lodge, Lodge le Progres, and all sojourning brethren are fraternally invited to attend. By order of the R. W. M. E. P. CHAPIN, Secretary.

WILLIAM M'KINLEY LODGE  
NO. 8, K. O. F.
